Non-sarcastic clarification of what is happening right now:

1. Mike Enoch has allowed Eric Striker to do full entryism on TRS
2. Striker now possesses the entire credibility of this site, something he did nothing to earn; he is incapable of gaining his own audience because his ideas are so shitty
3. Striker is openly interacting with Matt Parrott and that other guy from TWP, along with all of the rest of that group of anti-social lunatics, a group that Ramz Paul is also close with (which is why General Striker told Mike to have such a poisonous and comically irrelevant figure on this show)
4. Matt Heimbach is now back
5. There is zero chance that Eric Striker will not rush to Matt Heimbach to reform TWP, and take all of the credibility he's gotten from TRS with him
6. Even if Mike is bullied into not following Striker into "wtf am I looking at" plastic stahlhelm Ruisan orthodox communist neo-nazi revivalism, Striker is still considered a relevant and credible individual because Mike approved of him, and TWP 2.0 will have credibility because of this
7. TRS is responsible for the resurrection of all of that horrible, poisonous shit from 2017
8. If you can't see all of this unfolding in front of your face, you're fucking retarded
